

ALLIED CONTROL SERVICES, INC.

PROCESS ANALYZER SERVICES

ACS provides 24/7/365 process analyzer calibration, PM programs and emergency service for a wide variety of manufacturers equipment used in water and wastewater applications. We also offer applications review and sales support for all brands of equipment for upgrade of existing analyzers or new analyzer installations. We can provide full turn-key installation, startup and training for any analyzer application including mechanical and electrical services.

Our staff includes factory trained service engineers for Hach, GLI, Endress & Hauser, Rosemount and many other brands of equipment. This ensures that you have fully trained and qualified personnel for all of your analyzer needs. ACS can provide services including asset-management, calibration, validation, PM services and emergency service.

We support the following brands of process analyzers:

- ABB
- Hanna Instruments
- ATI Analytical Technology
- Honeywell
- Chemtrac
- Prominent
- Emerson
- Rosemount
- Endress & Hauser
- Entech Design
- Siemens
- Swan Analytical
- Evoqua
- Thermo Scientific
- GLI
- Hach
- Wallace & Tiernan
- YSI
